

The WWFA has recently arranged for a complete international transportation, customs, and small parcel program with A.N.Deringer, Inc. to help companies move goods to and from the United States.

A.N. Deringer, Inc. has been helping companies move goods to and from the US for over 90 years. Everyday we consolidate northbound and southbound shipments for clients based in Canada. We arrange the pick up and delivery of the merchandise, as well as clear Customs. Having one point of contact at our Buffalo office ensures that you have greater control, improved communication and customer service within your supply chain. Deringer manages logistics, allowing you to maximize your opportunities.

Deringer employs over 90 US Licensed Customs Brokers and is involved, on both a national and local level, with shaping current and future US Customs laws. Many of Deringer's executive management team serve on various US Customs and Border Protection trade committees and serve as Board of Directors for various trade groups. Rest assured — Deringer will help deliver your merchandise on time, accurately, in compliance, and on budget.

Features & Capabilities

- Seamless door-to-door delivery service with reliable and prompt LTL, FTL, and small parcel trucking
- eShipPartner®Direct – Remote shipping platform for non-inventoried items fully integrated into Deringer's WMS from your facility. Take advantage of US domestic courier rates rather than international rates
- Truck routes serving the greater Toronto area including Kitchener, Cambridge, Waterloo, Guelph, and east to Peterborough
- US and Canadian in-bond shipments
- Certified freight station and bonded distribution center provider inventory management, cross dock, freight consolidation and deconsolidation, reverse logistics, and corporately negotiated small parcel and LTL rates
- US and Canadian Customs clearance

Benefits

- Multiple orders can be consolidated into one master shipment with one Customs entry
- US domestic rates rather than international rates
- Complete shipment visibility via eShipPartner® online tracking and tracing tool
- State-of-the-art Warehouse Management System powered by industry leader Manhattan Associates
- Reduction in fulfillment turnover time
- Streamlined supply chain eliminates costly delays, damaged goods, and service failures caused by multiple logistics partners
- Dedicated Deringer resources monitor rapidly changing government regulations
- Pre-arrival review of Customs documents enables quick and efficient release of goods
- C-TPAT certified as a broker and consolidator
